231 E. FORSYTH STREET  
JACKSONVILLE, FL 32202  
(904) 630-2011

For Immediate Release  
April 17, 2008

### **Duval Property Appraiser's Office Offers More Data on the Web**

The Duval County Property Appraiser's Office is pleased to announce the redesign and upgrade of the Real Estate & Tangible Property Search on its website at **[www.coj.net/pa](http://www.coj.net/pa)**. With more than one million visits a year, the web site is the most frequently visited site of all city agencies.

The changes make data used by the Property Appraiser's Office readily available to the public. Through the Advanced Search feature, users are now able to narrow searches and extract specific categories of information from the county's property data base. Users can search for property based on a number of factors such as property type, sales data and price, property location and size just to name a few.

"Taxpayers and others who use our site often will benefit from a vast increase in the amount of data available to them, and also in targeting the way they are able to sort and use the data," said Jim Overton, Property Appraiser of Duval County.

Data can be downloaded in two formats –Excel and comma-delimited text. To view the new search functions, go to **[www.coj.net/pa](http://www.coj.net/pa)** and click on Property Search (on left side).

For more information, contact Isabel Pease, Community Relations Manager, at 630-1221.
