

**JACKSONVILLE FIRE AND RESCUE DEPARTMENT**  
**FIRE PREVENTION DIVISION**

**MEMORANDUM**

**TO:** All Interested Parties

**FROM:** Anthony Roseberry, Caption/Plans Review

**RE:** **PLANS FOR ABOVEGROUND STORAGE TANKS**

---

Plans for ALL storage tanks shall conform with the National Fire Protection Association (N.F.P.A.) Standard 30 and 30A and Florida Fire Prevention Code, current editions.

All plans submitted for permitting shall be to scale of, of standard engineering quality, and signed and sealed by a Registered Florida Professional Engineer.

Specifications and details to be shown on storage tank plans shall include, but are not limited to the following:

1. Containment construction and capacity
2. Tank supports, foundations, and anchorage
3. Dispenser installation
4. Marking and labeling of dispensing and tank area(s)
5. Electrical installation
6. Fire protection
7. Site plan (location on property showing tank(s), buildings, slope and grade, etc.)

Your cooperation will help in expediting approval of your plans and installation.
