

HOTLINE CASE

2008-2

January, 2008

(Anonymous call to the Hotline)

City Council Aide has a food catering business part time and is “doing business with the city”.

The Inspector General reviewed all city contracts and none were found with this business. No checks were made out to the entity and it is not a city vendor.

The Ethics Officer talked with the ECA and she said she did have an interest in a restaurant, but specifically did not do any business with the city.

Factual Findings: ECA did not violate any city regulations
