APPLICATION

DDRB staff will notify you if it is determined that your project requires 3D

Technical Requirements for 3D

- The following software is used to create the 3D model for Google Earth Design Software provided by Google: SketchUp
To download: <http://sketchup.google.com>
- The application used to view locations:
Google Earth: <http://earth.google.com>

If the user is required to have the project file created in a particular location on Google Earth, the Google Earth application will need to be downloaded and installed on the user's workstation.

The user will then identify the location of the project site and create the model in that particular location.

After creating this file, the model will have specific coordinates.

This model can be dropped to location when imported through the Google Earth program.

Please note that temporary construction trailer landscape and site plans, as well as sales center landscape and site plans, require approval by the DDRB.
