WORK BEGINS ON ATLANTIC BOULEVARD RESURACING AND IMPROVEMENT PROJECT

JACKSONVILLE—The Florida Department of Transportation will begin Monday a project to resurface and improve three miles of Atlantic Boulevard from Kings Avenue to University Boulevard.

A new traffic signal at U.S. 1 under I-95 is part of the project. Other improvements will include sidewalk and curb repairs, storm pipe replacements, adjustments of manhole covers and related activities.

The \$3.8 million project should be completed by the spring of 2010. The project contract allows 220 days to complete the work plus additional time for weather delays and unforeseen field conditions.

Lanes can be closed for construction purposes between 7 p.m. and 6 a.m. and 10 a.m. to 3 p.m.

J.B. Coxwell Contracting, Inc. of Jacksonville is the contractor on the job.
