

## HOMEOWNER SUNROOM ENCLOSURE AFFIDAVIT

The purpose of this document is to make you aware of any limitations in the enclosure that is being permitted at your residence. The table below, **Sunroom and Screen Enclosure Requirements** provides a brief description of the various sunroom category requirements. There may be restrictions on the use of your present home depending on the category of sunroom you are installing. The property owner is hereby notified that should they make changes to the sunroom which could include, but not be limited to, addition of any form of temperature control system or removal of the doors/windows separating the sunroom from the host structure, the room may become **non-compliant** with the requirements as mandated by the Florida Building Code, the Florida Model Energy Code and State Statutes.
