

Student Mental Health Conference

Evaluation Report

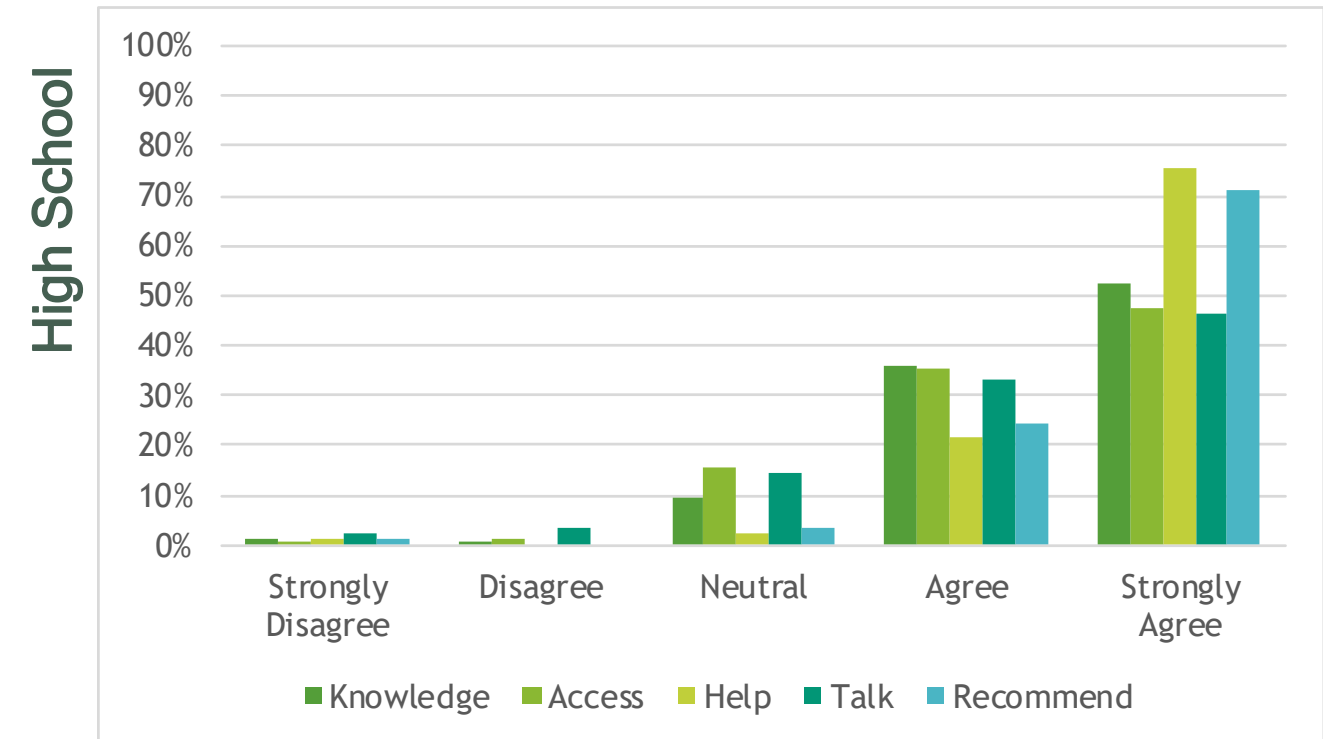

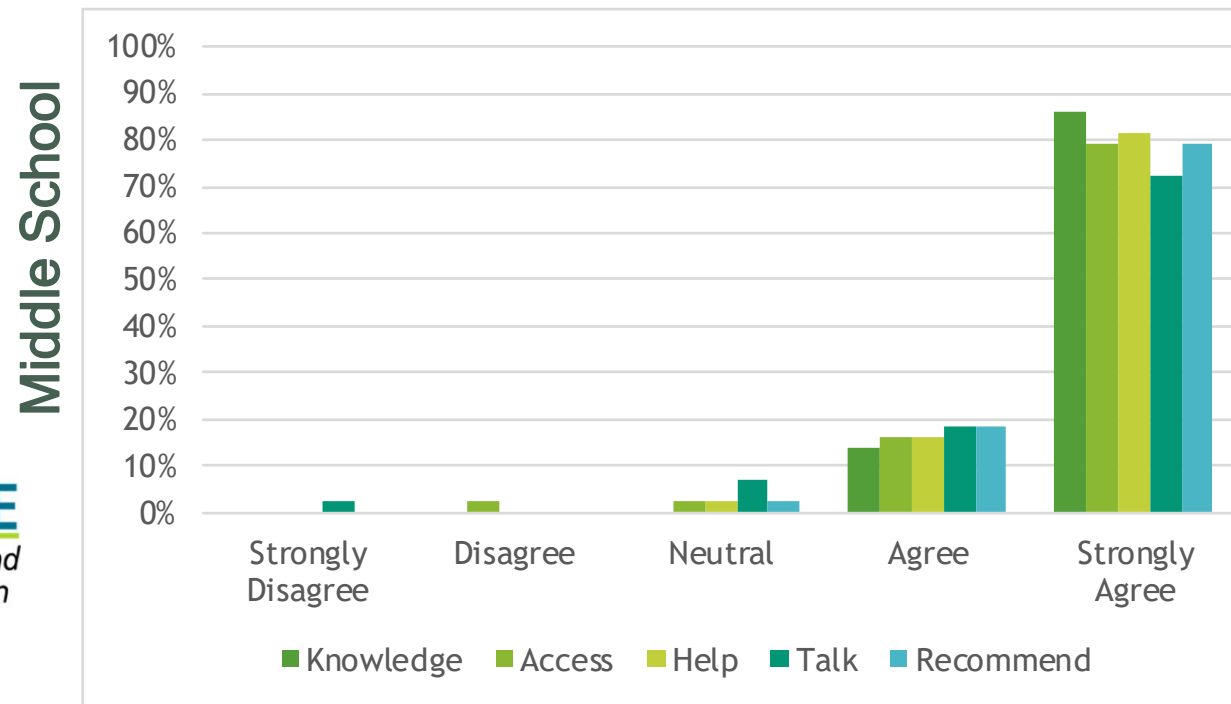

CONFERENCE STATS

- 191 High School Students From 20 Schools
- 43 Middle School Students From 3 Schools
- 20+ DCPS Parents and Educators
- 60+ Chaperones and Volunteers
- 17 Community Mental Health Vendors
- 42 Community Mental Health Presenters
- 21 Conference Planning Committee Members

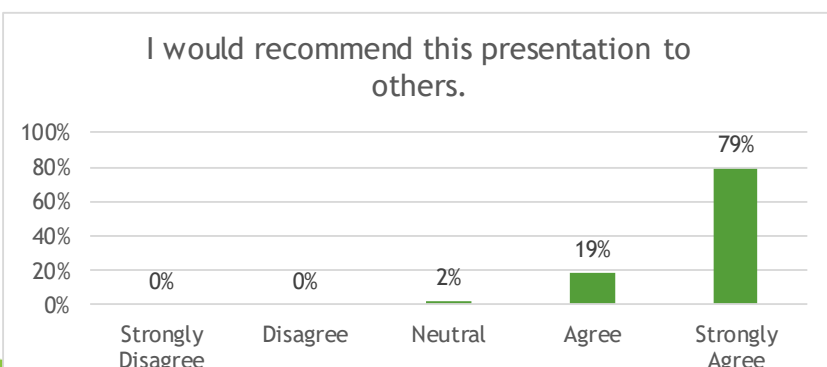

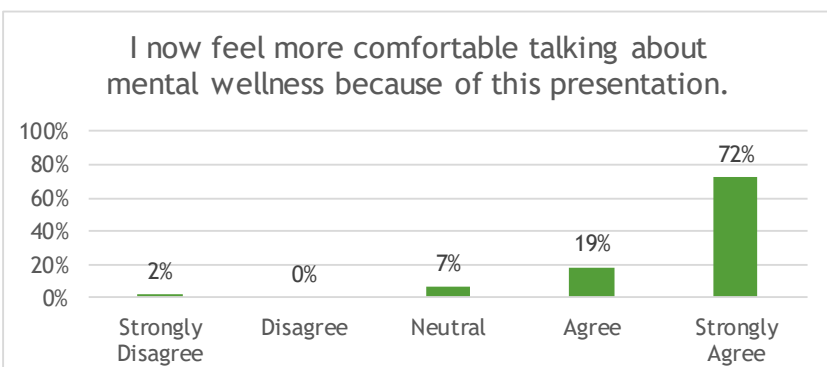

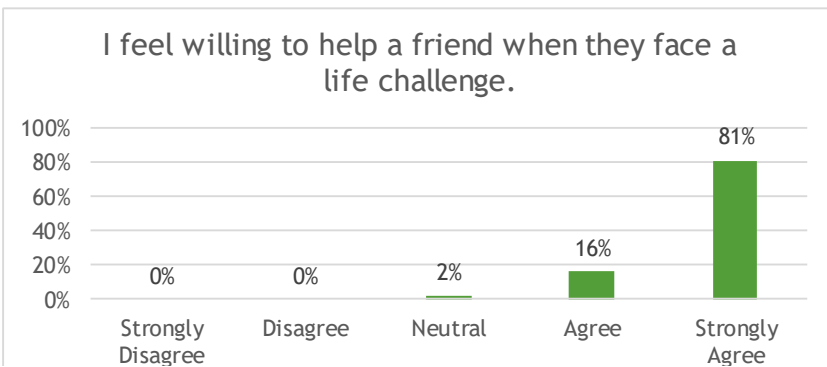

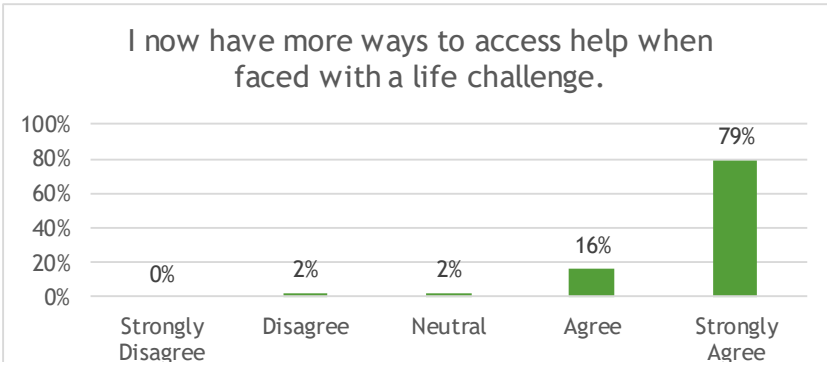

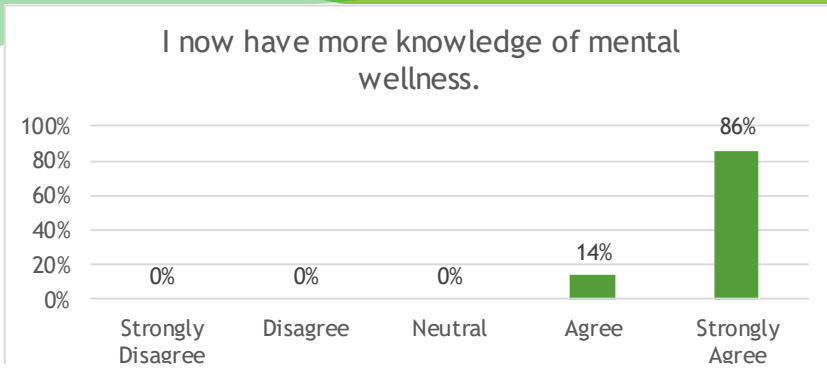

OVERALL SUCCESS

The majority of middle and high school students attending the conference rated themselves as strongly agreeing that their knowledge, access to help, comfortability in talking about, and willingness to help others with regard to mental health improved as a result of the conference presentations.

Middle School

"We need this information in our classes at school. This is important, and all students should be able to learn about mental health"

-High School Student Conference Attendee
