Keys to Adopting Healthy Habits

With daily life turned upside down for so many months, you may be eager to trade any bad habits you've picked up for healthier ones. One place to start is to have a checkup with your healthcare practitioner. Learning that your blood pressure is elevated, for instance, could help you kick start better lifestyle habits. Here are some more suggestions.

National Blood Donor Month

This year as COVID-19 cases continue, blood is needed every two seconds in the U.S. to help patients battling injury and illness. As COVID-19 cases continue to rise, The Red Cross is collecting convalescent plasma from those recovered from COVID-19 to help others going through COVID-19 treatment. They are also collecting plasma from whole blood donations from those who tested positive for COVID-19 antibodies. If you have recovered from COVID-19, giving a blood donation could be lifesaving.
