ONE CITY. ONE JACKSONVILLE.

September 12, 2019

From: 1Cloud Team

After conducting a thorough go-live readiness review, the 1Cloud project team has determined the revised go-live date for the new Oracle system will be February 29, 2020. The project team and executive leaders are confident the revised schedule will ensure the system will provide a positive user experience for all who will be using the new 1Cloud system.

For COJ Employees

You will continue to use legacy systems (including FAMIS, BPREP and JaxPro) into fiscal year 2020. All 2019 year-end closing activities will take place as currently scheduled and conducted in the legacy systems.

The project team is counting on each department's Subject Matter Experts to provide input and assist in supporting steady progress. If you are a project resource, please continue your involvement in all scheduled meetings, provide your valuable feedback and diligently complete your assigned tasks. Watch for further communications as we get closer to go-live, which will include schedules, training information, and instructions.

For Suppliers, Vendors, Contractors and Consultants

Please continue to register in the 1Cloud Supplier Portal. You will also continue to use JaxPro as usual.

For All

Thank you for your continued support and participation in the 1Cloud project. Please look for additional communications as we approach the go-live date.
