

DEPARTMENT OF PUBLIC WORKS
Building Inspection Division

August 22, 2000

MEMORANDUM

BULLETIN G24-00

TO: All Permit Applicants

FROM: Thomas H. Goldsbury, P.E., C.B.O.
Chief, Building Inspection Division

SUBJECT: Rated Wall Inspections-Inspection Request Numbers 22 and 70

The following procedures shall be followed for rated wall inspections as of October 1, 2000.

Each rated wall must be inspected in two stages.

1. First, the contractor shall call in a partial rated wall inspection, inspection request #70, when the rated wall is framed and one sided with drywall so screw pattern, priority walls, top plate and floor penetrations can be inspected.
2. The second half of the rated wall shall be requested using inspection request #s 70 or 22. A 70 is requested only if it is an incremental section of the wall that is being inspected. A 22 shall be used only if the final portion of rated wall for a particular project is being inspected. The inspector shall inspect firestopping, penetrations and wall labeling.

Thank you for your cooperation.
