

DEPARTMENT OF PUBLIC WORKS
Office of the Director

January 22, 2003

MEMORANDUM

Bulletin G-03-03

TO: All Permit Applicants

FROM: Thomas H. Goldsbury, P.E., C.B.O.
Chief, Building Inspection Division

RE: **New Required Inspections List**

Effective immediately a new, revised Required Inspections List will be provided when you obtain your permit. This list will be significantly different from the old list. **It will only list the required inspections for that specific permit.** For a building permit with mechanical, electrical, and/or plumbing work, it will note what other permits are required, but will not list the inspections for that associated permit at that time. As the other permits are obtained, the required inspections for that permit will be shown on the new list for that associated permit.

If you follow the required inspections over the web, when the building permit is first obtained, the required inspections for the building permit will be shown as well as a final inspection for each trade (mechanical, electrical or plumbing) involved. As your subcontractor obtains his permit, the required inspections for that associated permit will be added to the list on the web. Hopefully this will help eliminate the problems we have had trying to remove incorrect or unnecessary associated inspections. We are working towards listing these required inspections on your permit, however, that will involve significant reprogramming.

Please keep in mind, this is a list of minimum required inspections. There may be other inspections required by the Florida Building Code. Failure on our part to list a required inspection does not grant you permission to proceed without obtaining a required inspection.
