

BUILDING INSPECTION DIVISION

May 29, 2014

**MEMORANDUM**

**Bulletin G-03-14**

To: All Permit Applicants

From: Thomas H. Goldsbury, P.E., C.B.O., Chief,  
Building Inspection Division

**Subject: Commercial Swimming Pools**

Effective immediately, if the piping work for a commercial swimming pool is being installed by the swimming pool permit holder, no plumbing permit will be required. The piping will be inspected for size by the building inspector during the rebar inspection (#21), and the pool equipment will be confirmed by the building inspector during the final inspection. If you have an active commercial pool permit and a plumbing permit or a plumbing permit requirement, please continue in that mode and call for those plumbing inspections. This is only for new commercial pool permits submitted after today.
