MEMORANDUM

Bulletin G-08-09

To: All Permit Applicants

From: Thomas H. Goldsbury, P.E., C.B.O.
Chief, Building Inspection Division

Subject: Pond Permitting

The purpose of this Bulletin is to notify you that effective October 1, 2009, a building permit will no longer be required from the Building Inspection Division for ponds or borrow pits. A Site Clearing/Tree Removal permit may still be required from this office, those regulations have not changed. There are still many other agencies that regulate pond/borrow pit construction. I have attached for your use, a list of the agencies that we presently route pond/borrow pit permit applications to for review and approval. There may be other agencies in addition to those on the list that you need to contact to ensure your excavation complies with their regulations.

For permit applications already in progress, if we receive all the approvals prior to October 1, 2009, a permit may be issued.
