

PUBLIC BUILDINGS AND FACILITIES (PBF)

PBF - GENERAL INTENT

This is a broad land use category that is intended to accommodate major public use or community service activities.

Siting public/semi-public facilities that are allowed in commercial, light and heavy industrial, residential and institutional categories as supporting uses will not require plan amendment. Some major uses, however, because of their scale and potential community impacts, may only be sited in this plan category.

Activities that provide community service functions vary in character and locational need. A primary consideration in locating these uses is to ensure that each use will function as it is intended, as an important part of the urban service delivery system. The standards to be prepared as Land Development Regulations and the criteria herein only designate locations that may be considered for public/semi-public uses, and do not apply to military bases or other uses that do not directly serve the citizens of the City. Consideration does not guarantee approval of a particular use in any given location. With the exception of utility substations and other similar non-trip generating uses, community and regional serving public/semi-public sites should abut a roadway classified as a collector or higher facility on the adopted highway functional classification system map, which is part of the 2030 Comprehensive Plan.
