The program is continuing to grow each month, as well as reach more incarcerated women. Of the 10 women who have gained employment, none have been rearrested. We continue to assist each woman in their individual needs to ensure a successful, stable			
future. Major challenges since October 2014 have been clients with severe mental health issues and residential issues. We've worked			
with other agencies to address services beyond our scope by referring clients needing medication and housing to assist with wrap-arc services.	with other agencies to address services beyond
