Vision	Mission
<p>Our vision is to continuously provide excellent customer services to our internal and external customers by creating and maintaining business partnerships, while always responding with a smile and going the extra mile.</p>	<p>The Employee Services Department continues to work as a business partner to help other departments streamline their employee population, by assisting with restructuring job descriptions, evaluating salary plans and updating organizational plans.</p>

**# of City Employees: 7,011**

**Narrative**  
 Since the beginning of 2011, the city has seen a decrease in its employee population in every area of government. The attrition is attributed to retirements, resignations, terminations and budget cuts. Though reduced in number, the city continues to strive to provide more with less.
