

Intra-Governmental Services / Fleet Management Division

[Division Website](#)

Vision

To be the most comprehensive and efficient vehicle/equipment service program supporting the city’s agencies, independent authorities and the Florida Department of Transportation.

Mission

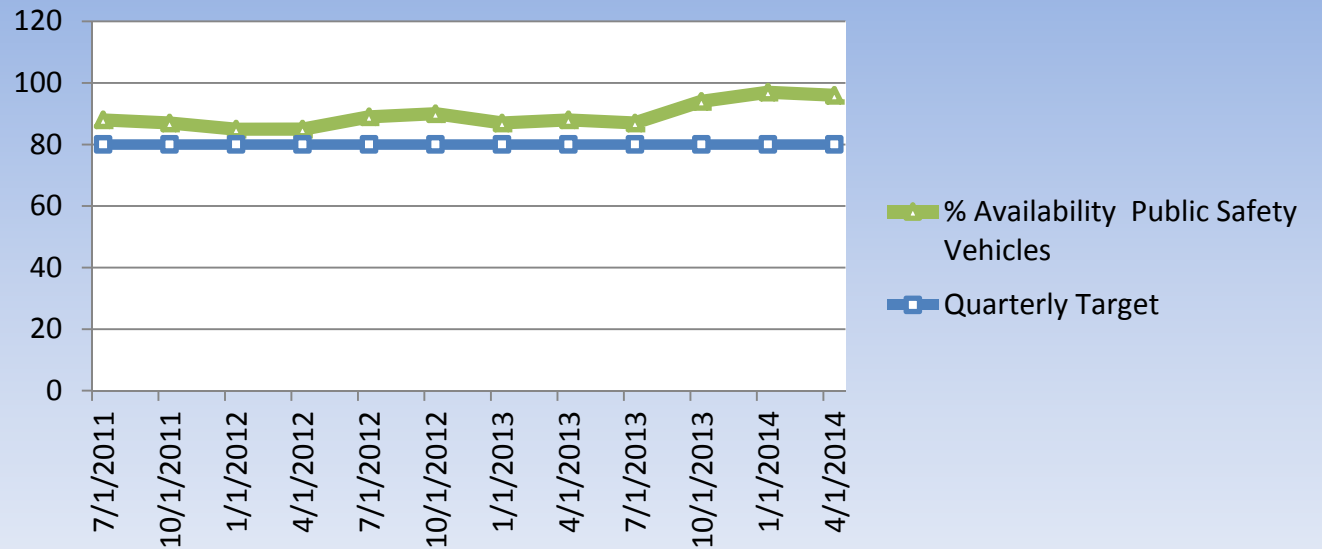

Fleet Management provides reliable, safe and well-maintained vehicles, equipment and services to the city’s agencies and independent authorities, and to state agencies. We are committed to providing the highest quality of service in an efficient, timely and cost effective manner.

Availability of Police and Fire Vehicles: 96%

Quarterly Target: 80%

City Priority

Effective & Efficient Government

Narrative

The number of JSO and JFRD vehicles available on the streets of Jacksonville plays an important role in the public safety of our community. Fleet Management places a priority on ensuring that as many police cars, ambulances and fire trucks as possible are in service. Through increased focus and resource allocation, Fleet Management continues to increase the percentage of available vehicles.
