Quality of Life																																																																
Narrative	<p>The Down Payment Assistance Program provides reduced rate mortgages and/or financial assistance to eligible families/individuals who are interested in purchasing a home but do not have the finances required for a down payment, closing costs, and/or principal reduction. The program is financed through federal and state funds, and eligible buyers must be credit worthy and able to secure a first mortgage with financing from a conventional participating lender. The downturn in late 2011 and early 2012 can be attributed to a drop-off in lender participation in the program due to the high number of foreclosures in the market. As the market stabilized, the number of families assisted has increased through 2013.</p>
