Vision

JaxParks is dedicated to ensuring high-quality programs and facilities that will fuel private/public partnerships, champion cultural diversity, inspire physical wellbeing, encourage environmental participation, education and protection, and create a sense of community for the residents of Duval County and its visitors.

Mission

Enhance quality of life and secure Jacksonville as a destination that people want to experience through the creation and operation of diverse, year-round recreation and leisure opportunities.

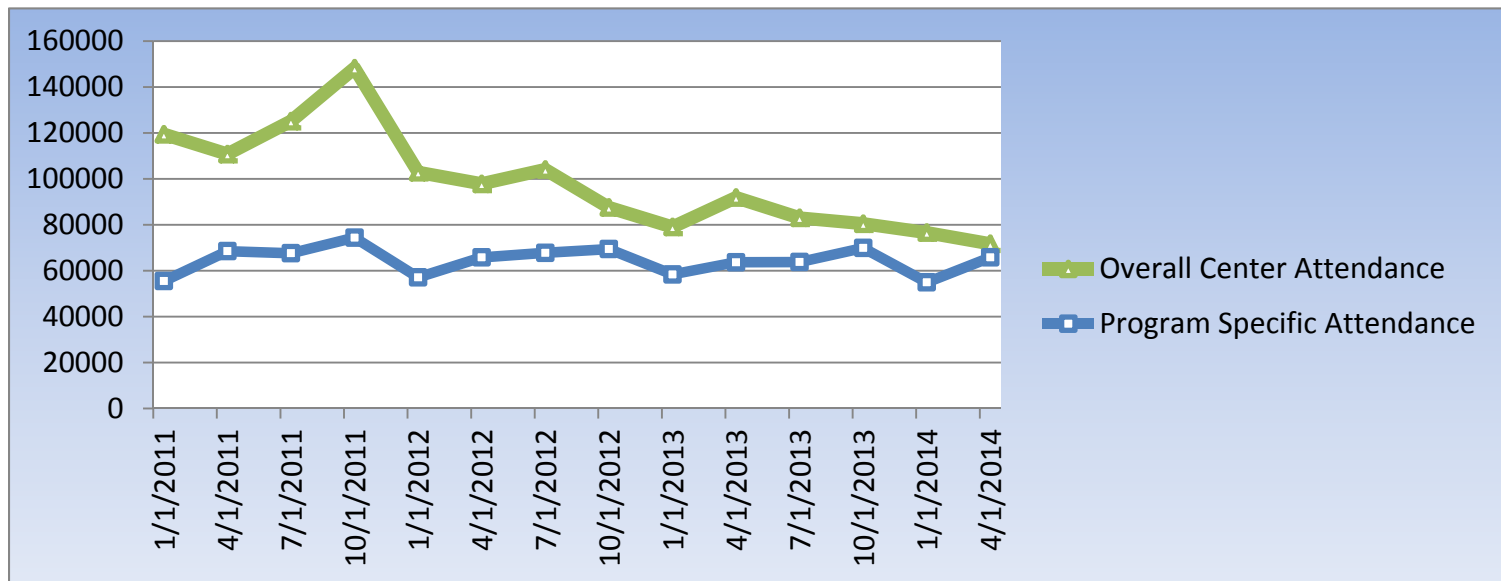

Attendance Across Community Centers: 71,728

Attendance at Programmed Events: 65,804

City Priority

Public Engagement

Quality of Life

Narrative

Jacksonville residents take advantage of the amenities at community centers across the county by holding community meetings, hosting gatherings, and using computer labs, classrooms and gymnasiums. We also place an emphasis on providing quality experiences for all residents through programmed recreation, such as youth education and recreation, adult wellness, and life skills classes for our disabled community.
