

# AGENDA

## The Jacksonville Journey

Neighborhood Safety and Stability

February 12, 2008  
2:30 p.m. – 5:00 p.m.

---

Approval of Meeting Minutes from 2/5/08

Tony  
Boselli

---

Action Items:

- Recommend to Steering Committee that City of Jacksonville define assets in the 'hot-spot-'areas for use for after-school programs. Schools should be looked at as a priority with Community Centers, Churches and other public/private facilities filling in the gaps.
- Recommend to the Steering Committee that the City of Jacksonville should locate property (raw land or existing structures) for building/retrofitting as a gymnasium/multi-use facility. Hot spot areas should be given priority.
- Recommend to the Steering Committee that all funds currently appropriated for after-school programs and community center operations as well as any future funding identified should be pooled into one fund on an annual basis for programming these centers. The Jacksonville Journey's Positive Youth Development Committee should define appropriate programming models. The Parks Advisory Board should assess program outcomes and recommend funding on an annual basis.
- Recommend to the Steering Committee that all Centers have a public and private component for operations and programming.
- Recommend to the Steering Committee that a request be made of JEA to place a 'check' box on their bill for donations to Parks Programming.
