Subject: Retirement reform

I am interested in speaking at the meeting November 5, 2013. You do not make it easy for the taxpayer to have input. You have the meeting downtown at a very inconvenient time. Tell me what I have to do to have input. This information was tucked away on page E-2 of the newspaper. I wonder why our city council representatives are not having meetings with their constituents at a time and location that is convenient for them. Our taxes and fees continue to increase. The salaries and pensions of the police and firemen are bankrupting the city.
